the DIPLOMACY (the game created by Allan Calhamer and now owned and marketed by Avalon-Hill Corp) supplement to the Sunday Western Star-Post-Free Press, Vol 9, No 2, February 1, 1981

DIPPY is published by the Great Western Publishing Co & Whalebone Coreet Works Unc, a.k.a., Jim Benes, 417 S Stough St, Hinsdale, Ill 60521
 ALAS AND ALACK, because of rising costs and the bath we took financially in 1980, we are forced to raise our prices. Effective immediately, game fees will be .66 and the subscription rate will be four issues per dollar. Please accept our apologies for this, but inflation is a fact of life for publishers too.

ATTENTION CHICAGO AREA DIPLOMACY PLAYERS: Eric Ozog announces that there will be a face-to-face game at 11 a.m. Sunday, February 15th at the home of Andy Lischett, 3025 N Davlin Ct, Chicago, 60618. For further information, call Andy at 282-4752.

TWO INTERESTING NEW PUBLICATIONS to ~~xxx~~ arose our desk since the last time are these: the LONG STAR DIPLOMAT, published by Mike Commer, 3214 Beverly Road, Austin, Texas 78703. This is one of the best-looking publications we've seen in quite awhile. Also, looking promising is THE WHITE DUKE, published by Steve Shaddix, 5486 Butano Way, Rocklin, California 95677. Since we have no evidence to go on, we cannot recommend or not recommend the reliability of either of these gamesters. We can only say that they appear to be worthy of a try. We can recommend, however, and especially to our new DIPPY players, that you avoid Bernie Oaklyn's FRONT DU LIBERATION DU DIPLOMACY. Past DIPPY subscribers have complained about a ~~xxx~~ lack of reliability there.

DIPPY Game #15, the Mikula, 1979F, Winter, 1911, and Spring, 1912:

DOWN AT THE BARLON WITH SHREVE. I was sittin' there at the Deo Drop Inn sippin' some Mad Dog with my old friend Jim Beans from Hinsdale. He was tip in a few an he was tellin me about this time he was in Wisconsin just before Muckie season.

"Y'see, Shreevy, I wasn't payin no attention when this big ol' muskie grabs my rod out my hands in his teeth and proceeds to beat me over the head with it. Not worried, but I manage to get my milts back onto the rod and its only to save my life and warn for public safety that I snag him and pull him into my boat. If that there game warden had showed up a few minutes before he did, he would have thanked me instead of throwin me in the pokey."

"Game wardens just dont believe nothin," I says. "There was this time I was out dder huntin. There I was in the bushes tryin to relieve myself when I looks up an there is these fawns all feamin at the mouth and lookin real mean. I get only a deer can. Before I knows it they is attackin me a beatin me around. Its all I get do to get my pants up an get back to my gun. Where I blasts both of them in self defense. Right then, I got real worried about them cussin up the woods, so I put them in my car an just as Im about to slam the trunk, this game warden comes by an hauls me off to jail."

Right then, the bartender, ol' Jack Frost, comes over.

"You guys think you had it rough explainin to a game warden. You shoulda been with me last time I went trout fishing. I had my waters on and was standing in the water, giving it my best. I had maybe two trout. When I see the water all churnin around me and a couple of my fingers get bit, Right then I know I am being attacked by a herd of rabid trout. They are going crazy to get at me and I decide I better take for shore. I scramble up on the beach, thinking I am safe. When I see they are all jumping onto the shore to get at me. Before I know it, there are maybe 20 trout flip-flopping after me. I got scared and climbed into the nearest tree to hide. They flop over to the tree but then die from being out of water. I am darn near about to climb down and report this to science when this Game Warden comes by, claims I have too many trout in my possession, orders me to stop hiding in the tree and drags me off to jail."

Me, I'm no dummy and I holds my own with any man when a story is to be beat. But right then I knowed this wasn't no fish story you could beat on no spur of the moment, so I done the only thing I could do. I changed the subject.

HINSDALE—For those of you new to postal Diplomacy, here's what that all means: Underlined moves are not successful. CAPITALS INDICATE the final resting place of the unit. We never have printed any house rules. These are some of the guidelines we use: show an order for each unit; I'll ask for a replacement if you miss three consecutive moves; Tony, you can use the basic 3 letter abbreviations, but note the different designations for NTH north sea NWG norwegian sea and so forth. And, Luis, thanks for returning the stamp.

TURKISH PRESS—The Empire of Turkey hereby declare war Mexico and all of its possessions. (sic)

HINSDALE—Oops, I almost forgot. Please be advised that I have the distinct unpleasure of having to rise at 1:15 a.m. to go to work. Ergo this thing is produced on the afternoon of the deadline day. If you want me to call you collect in the event that you miss an order, please provide me with a phone number where I can reach you between noon and 5 central time. Thank you.

MOTION PIX IN WORKS?

BUT DON'T HOLD YOUR BREATH

By Ozgood Z8Beard,
STAR Culture Guy

RIVERSIDE—MGM, 20th Century Fox, and Warner Brothers are competing for rights to film a new motion picture based on the life of Jim Gillespie's Cat, E.C. (Everycat). The movie is to be called "Jaws."

It is the story of former Bulgarian defector-turned itinerant wine salesman Rich King who fears that he is being stalked by a Great Grey (cat) as he makes his rounds by night, visiting posh suburban wine tasting parties.

The script calls for a great deal of blood and gore as many of King's customers answer a knock at their doors after he has left. Thinking it is the wine salesman returning they open the door to be confronted by the Great Grey which, in the manner of Saturday Night Live's Landshark, devours them amid horrendous screams and blood-curdling cries.

The picture is to have a fantastic chase scene near its end, as hunter Jim Gillespie, mounted atop an elephant, pursues the Great Grey with an elephant gun thru Chicago's Loop. Spooked by the Grey, the elephant rears, destroying some historic elevated rapid transit structure and the first floor of Marshall Field's. The grey scales Sears Tower in the manner of King Kong, and the movie ends, well, we won't tell you how...

Yet Another Year of this Silliness
QUOTABLE: Alan Peters saw this quote from Paul Westphal in a Boston newspaper: "Wally Walker is the second most important guy on the team (Seattle of the NBA). He's Jack Sikma's ride to the game..."

February 1-7 is National Guilt Feelings Week, highlighted by Bust Loose (Broken Bra Strap) Day, (6th)...

FIVE YEARS AGO IN THE STAR

Newsradio Police reporter Joe Cummings, hearing a police radio call of a man yelling for help, sped to the 35 hundred block of North Halsted in Chicago and quickly became embroiled with the offender. Joe drove up to a man who was standing in the middle of the street and waving his arms frantically.

"Are you da guy dat's yellin' for help?" queried Joe in his best Chicago accent. The man's only response was to grab Joe by his parka collar and begin throttling him yelling "Kill! Kill!"

Luckily, Joe escaped alive...

Rich King's name hit print for only the second time in his lifetime. Gary Deeb in the Chicago Tribune reported that King had been named weekend sportscaster at WBBM. The first time had been when the New World Catholic newspaper reported that King was the lead-off man for the Pilsen Wildcats in the CYO championship game. The STAR contacted King about the Deeb report. King's reaction: "it feels great to get a new job...but I still believe that being 2-for-4 in the softball game was the greatest. I can remember my first hit...a blistering....."

And Five Years Ago the STAR reported in its Five Years Ago column that Madge Greenfart broke into print here for the first time, her gossip column beginning: "What bouncing boy (Column)

made a killing at what famous southwest suburban Casino over the weekend and lived to talk about it? You guessed it. Big Tiny Little! He walked out toting shekls while messieurs Benes and Benes staggered out rolling in rum. Louis Tortorelli drove our Philly home, in the trunk..."

Now where has all that great prose gone?

FARBER INTERVIEWS FOR REAL JOB

By C D Workman, STAR Labor Ed

ROSEMONT, Jan 26-

-Jerry Farber today had an interview for a real job with a real insurance company.

Farbs, you may recall, now peddles OldForester (er, isn't that some sort of booze?) Insurance or something like that for which he's paid the crumbs off his boss' dining table. It's a tough way to make a living.

Now, however, we're told that Jerry was interviewed by a little known company that sells insurance exclusively to clergymen. Of course, this is difficult to believe, that any company could stay in business in such a fashion. Nonetheless, it appears that if Farbs gets the job with the company, he'll be paid a real salary, and not just commissions on his sales. When questioned by the STAR prior to his interview, Jerry was about as exuberant as he ever gets. Best of luck, Jerry! Give us some good news!

BENES IN CLOSE BRUSH WITH DEATH

By Rex Karz

INDIAN HEAD PARK, Jan 28—STAR publisher and TWA statistician Jim Benes almost met his death here this morning. The portly Slav was peacefully driving home on the Stevenson Expressway, muttering to himself in Czech, when a small Ford in front of Benes cut in front of the semi-trailer truck that was ahead and to Benes' right. The semi went into a skid, with the cab turning into Benes' lane, and the trailer beginning to tilt dangerously toward a fall onto Benes' car.

The quick-thinking news editor nearly shit in his pants. He slammed on the break, twirled his wheel to the left, and swerved into the left-most lane of the three lane highway. Luckily, there was nobody there. Luckily for the driver behind Benes, the semi's driver pulled his truck out of the skid without it tipping over.

All involved, it is believed, had a few choice phrases for the driver of the little Ford who continued on, seemingly unaware of the near disaster he or she had nearly caused, up the ramp to the Tri-State Tollway.

GORSKI KIN INVOLVED IN POLISH CRISIS

By Emil Dupa

WARSAW, Jan 29—As the crisis here between Polish laborers and the government continues to heat up, with Soviet tanks and troops preparing for an invasion ala Czechoslovakia in 1968 or Hungary in 1956, a kinsman of the STAR's own Ron Gorski has become embroiled in the controversy. He is Janusz (in English we believe this would be pronounced Yonnush) Gorski, Poland's minister of education.

As United Press International reported today: "In the mounting turmoil, students at Lodz University occupying a hall ~~defiantly~~ defiantly awaited the arrival today of education minister Janusz Gorski for talks on demands for an end to compulsory classes on Marxism."

When the current Polish government falls, which is likely with or without a Soviet military action, Janusz Gorski will be looking for a job. Sources close to the STAR have quoted Ron Gorski as saying "If Uncle needs a job, we can put him up as talent director for the Naperville Suns."

We shall see.

PERHAPS SOME OF YOU saw or heard the news conference broadcast earlier this week of the former American hostages in Iran. If you did, perhaps you're wondering who that woman was, who, at the end of the session, demanded to ask a question about CIA involvement in Iran and the torture of Iranians by American-backed operatives. She according to the Associated Press, was 29 year old Virginia Wohl, who is described as a "supporter of the Revolutionary Communist Party and an unpublished free-lance writer." An unpublished, free-lance writer? Just like our own Phil Kosin, right?

MORE TWA DICTIONARY (continued from last week)

BENESISM—noun—a disease of middle aged men which turns vital organs into phlegm.

SKAJOLGY—noun—the study of prolonged periods of time in the cellar.

ARDLISTIC—adj—the quality of being unable to find solutions to simplistic problems.

BEAVER—synonym—Jerry Mathers or Joe Antosiak.

ATTENTION GAMEPLAYERS! Joe Antosiak is planning on gamesmastering a run-thru of TOP SECRET, a role-playing espionage game. This is to take place on Sunday, Feb 7, at the home of Jim Benes. If you'd like to participate, please contact Joe for details.

TRUE FACTS

Maybe there is something to that theory: seems the Fundamentalists assemblies of God people believe a triple six pledges allegiance to the devil! Tonya Turnbull's life changed for the better after she got rid of license plates with a 666 on them. While she had the plates, her husband got a brain tumor, and on 3 of her cars displaying those plates, the brakes failed!

TBA Commissioner John McArdle reminds all franchise owners that according to TBA rules, copies of all teams are to have been filed with the Commissioner's office by now. Few owners have complied. Please send a copy of your team to the Commissioner now!

McArdle ~~and~~ also has come up with yet another chart for making player cards for the upcoming player draft. This system includes elements of both the old card set system and the previous chart systems. The chart allows each drafter to select various qualities that he wants to enhance in his draft player. Thus if you're looking for a center with good defense, for instance, you can expend a certain amount of points you will be awarded depending upon your position in the draft to enhance your draftee's defensive capabilities.

McArdle also announces the following players cut into the "dregs" pool: Windstorm Gale (G 4B r 6 ls); Rufus Tewksburg (G/F 2B r 3 5 ls); Clayton Moore (F/C 3B r 15 4 ls) and Pismo Clam (information unavailable at press time). According to TBA rule 33 the dregs poolx now is closed, except for these players, or in the event that an active TBA player is injured.
